

GET TO KNOW YOUR CLASS WITH POSITIVE QUESTIONS

Seeking out the positive qualities in people is very important. Whether you think of this quality of someone or the other person thinks this of them self, either way positivity is key. For each of the questions below look for someone in the class that fits that description. Make sure you actually ask people the questions instead of just having them sign a random one. Also you will see three blank boxes on the bottom. These are up to you to fill in. Make sure they are **POSITIVE** questions. Try to talk to everyone at least once but only have them sign **ONE** box.
